SIEMENS Awarded Contract by Army Corps of Engineers for MAINTENANCE SERVICES

WASHINGTON, December 19, 2012 – Siemens Government Technologies, Inc. today announced that it has been selected as an award recipient for the Army Maintenance Services (AMS) contract from the U.S. Army Corps of Engineers. The contract has a shared capacity of \$315 million over a period of one base year and four option years.

As an awardee, the AMS Multiple Award Task Order Contract (MATOC) provides a contract for Siemens to conduct long term, managed services projects for the U.S. Army Corps of Engineers' customers involving the maintenance and repair of Electronic Security, Access Control Point, Utility Monitoring and Control, Physical Security Systems and other related systems. Work will be performed in the U.S. and at U.S. facilities overseas.

"Siemens is a trusted technology partner for smart, safe and secure buildings and installations," said Judy Marks, President and CEO, Siemens Government Technologies, Inc. "We are excited to extend our offerings through this contract and we are committed to delivering mission success affordably and efficiently for our government customers."

Siemens Government Technologies, Inc. has an established performance record in the area of managed services through its Technical Services division and work as a prime contractor serving multiple federal customers such as the Department of Homeland Security and U.S. Army Corps of Engineers.

#

Siemens Government Technologies, Inc. is a federally-compliant U.S. organization structured to provide answers for some of the nation's most challenging issues within the federal market in infrastructure, energy, industry and healthcare.
